

R3606 Atlantis underwater light with glare shield – 12v solid brass IP68

Atlantis is a 12v brass underwater spotlight designed for submersion in water features. A shimmering lighting effect when used in conjunction with moving water adds another dimension to creative garden lighting design. Mounting bases, extension stems, clip-on colour filters and transformers are available but must be purchased separately.

PHYSICAL DATA

Atlantis with glare shield is made from solid brass with a sandblasted finish, and features a heat resistant, flush tempered clear glass lens. The light fitting measures 90mm in diameter x 110mm depth. Supplied with stirrup mounting bracket. High temperature 'O' ring seal and stainless steel screws complete the construction.

ELECTRICAL DATA

12v ac – Requires power from a transformer (purchase separately.) The light accepts MR16 LED or MR16 halogen (up to 35w) lamps. Supplied with factory fitted, 6m twin core HO7RN-F input cable.

INSTALLATION

A waterproof IP68 connection may be achieved by using either the GLWJB IP68 junction box or GLWCC waterproof cable connector

COMPLIANCE & WARRANTY

- 2 Year Warranty
- CE / RoHS Compliant
