

E2561S Neptune Recessed Light with square top – Brass 12v

E2561S is a 110mm square, solid brass recessed uplight with a sand blasted top, complete with stainless steel sleeve for installation in paving. It is a low voltage, non-adjustable uplighter for use with retrofit MR16 LED lamps. IP68 rating makes it ideal for wet areas. Purchase lamp and power supply separately

PHYSICAL DATA

- Solid brass construction
- IP68

ELECTRICAL DATA

- 12v requires power from suitable transformer or DC power supply
- Pre-fitted 6m cable
- Recommended lamps: choose from a wide selection of MR16 LED lamps

INSTALLATION

Insert the sleeve into ground at time of construction, or retrofit by drilling a 100mm hole using a coring bit to a minimum depth of 150mm minimum. Feed the cable through the sleeve and push the light into the tube.

COMPLIANCE & WARRANTY

- 5 year warranty solid brass
 - CE / RoHS Compliant
- Recycled waste water may react with solid brass finish
