

GLWW03W Lumini - Warm White 0.3w Deck Light with Frosted Lens

Lumini is a small recessed deck light with a 0.3w warm white led, frosted lens and chamfered stainless steel top. It is designed for easy installation with the minimum of tools with the Elipta range of Plug&Play transformers, connectors, extension cables and junction boxes

PHYSICAL DATA

Body is constructed from 304 stainless steel, with machined chamfered top measuring 34mm in diameter, with a 20mm frosted lens. The depth of the body is 21mm.

ELECTRICAL DATA

12v ac – Requires power from a compatible plug & play transformer. The light features a built in 0.3w CREE 3000K warm white LED producing 5 lumens output with a wide 120° beam angle. Supplied fitted with 1m twin core input cable terminated with a male 2-pin IP44 plug & play connector, and a 1m twin core output cable terminated in a 2 pin female connector to permit daisy chaining up to 12 Lumini lights by using optional plug&play extension cables.

INSTALLATION

Drill a 30mm diameter hole in decking, feed cables through the hole and press fit the light into the hole.

COMPLIANCE & WARRANTY

- 2 Year Warranty
- CE / RoHS Compliant
