

# E1032TL- Nimbus 30 Outdoor Wall Light with Louvres - Teak

## Description

Nimbus 30 outdoor wall light is a 240v wall or pillar mount light, a natural Teak wall light with stainless steel louvres and wall mounting base and has a E27 lamp holder for use with 7w warm white LED or compact fluorescent lamps behind a opal lens to give a soft wide spreading light for lighting around patios and seating areas from a house wall, pergola or in a gazebo.

<b>Electrical</b>	240v E27 LED Lamp
<b>Colour/ Finish</b>	Natural Teak body with Stainless Steel wall box
<b>Exterior Dimensions</b>	220mm tall x 100mm wide

## Installation Guidelines

Must be installed by a qualified electrician. Unscrew two grub-screws that secure the base plate. Mark the fixing holes and remove the base plate. Drill the fixing holes and insert the two wall fixings provided. Secure the base to the wall using supplied screws, making sure the two O-rings and washers are fitted. Feed the power cable through the grommet and make the connection to the terminal block in the base of the lamp. The use of T9990 sealant applied around the cable entry is recommended to ensure an effective seal. Place the lamp over the base and secure using the two grub screws.

**Using a single RCD for large numbers of 240v fittings is not recommended due to the risk of nuisance tripping. We advise the use of separate RCD protection for each circuit and a maximum of 12 fittings per RCD.**

## 2 YEAR WARRANTY

Exclusions: Damage by machinery, animals or the use of incorrect cleaning materials. Corrosion due to exposure to salt or chlorine. Damage due to incorrect installation practices. Responsibility for 3rd party cost: indirect or consequential loss.
