

## E9772WN- Super Slim LED Flood - 240v - 20w - 2000lm - 4000K

### Description

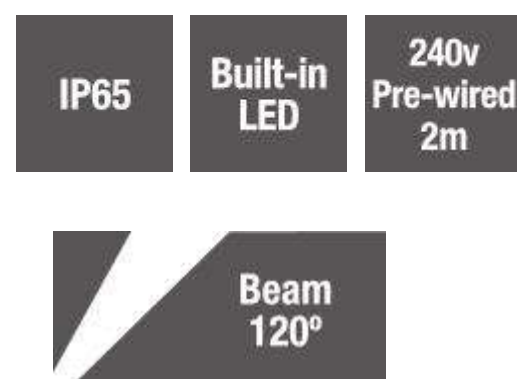

Super Slim LED Flood is an adjustable 240v led floodlight with a die-cast aluminium body and mounting bracket powder-coated in black. It has a high-efficiency 20w COB led providing light output equivalent to a 200w halogen lamp in an even 120 degree beam for wall washing and uplighting spreading trees.

### Installation guidelines

Stirrup bracket mounts on walls or the optional E2530M ground spikes. A 2m input cable is provided for connection to the mains supply via a separate weatherproof socket, junction box or underground joint kit (not supplied).

Using a single RCD for large numbers of 240v fittings is not recommended due to the risk of nuisance tripping. We advise the use of separate RCD protection for each circuit and a maximum of 12 fittings per RCD.

## 2 YEAR WARRANTY

Exclusions: Damage by machinery, animals or the use of incorrect cleaning materials. Corrosion due to exposure to salt or chlorine. Damage due to incorrect installation practices. Responsibility for 3rd party cost; indirect or consequential loss
